

PROFESSIONAL SUMMARY

Second-year B.Tech CSE student with hands-on experience shipping production-grade AI products leveraging LLMs, RAG pipelines and agentic workflows. Skilled in full-stack development and cross-functional collaboration to deliver live cloud deployments and translate technical insights into user-facing features. Eager to broaden into AI product management and contribute to next-generation AI-driven consumer applications.

TECHNICAL SKILLS

- **AI / ML / NLP:** LLMs, RAG, Agentic Pipelines, Prompt Engineering, NLP, Scikit-learn, Feature Engineering, Model Evaluation, Context Synthesis, AI Optimization
- **Languages:** Python, TypeScript, JavaScript, Java, C++, HTML, CSS
- **Frontend:** Next.js, React, Tailwind CSS, Vite, Web APIs
- **Backend:** Node.js, Express.js, Spring Boot, REST APIs, MongoDB, MySQL, JWT Auth
- **DevOps & Cloud:** Docker, Docker Compose, AWS (Solutions Architecture), Vercel, Render
- **Tools:** Git, Jupyter Notebook, Postman

WORK EXPERIENCE

CodeAlpha

May 2025 - Jun 2025

Machine Learning Intern

- Designed and trained supervised ML models on real-world datasets using feature engineering, cross-validation, and hyperparameter tuning to maximize predictive accuracy and generalization.
- Delivered production-ready ML artifacts within agile sprint cycles, collaborating with product and engineering teams to integrate LLMs into production environments.
- Gained end-to-end ML lifecycle experience - raw data ingestion, preprocessing, feature engineering, model evaluation, and iterative improvement.
- Applied AI optimization techniques to enhance model inference latency and throughput through iterative architecture and pipeline refinements.

InAmigos Foundation

Dec 2025 - Jan 2026

Visual Designer

- Designed data-driven visual narratives for social impact initiatives, translating complex AI-generated insights into clear, accessible content for non-technical audiences.
- Strengthened stakeholder communication skills by collaborating with cross-functional teams to incorporate AI-driven features into visual narratives.
- Worked cross-functionally with engineering teams to refine AI-driven product designs and ensure alignment with user needs.

PROJECTS

GigFlow CRM [GitHub](#)

- Architected and shipped a production-grade full-stack CRM with JWT authentication, role-based access control, CRUD lead management, analytics dashboards, debounced search, pagination, and CSV export.
- Built a decoupled React/TypeScript frontend (Vite + Tailwind) and Node.js/Express/MongoDB backend, containerized with Docker and Docker Compose for environment parity.
- Demonstrated end-to-end DevOps ownership - frontend on Vercel, backend on Render, with full cloud production deployment.

AccentTrainer [GitHub](#)

- Built and deployed a full-stack NLP-driven language learning app with real-time US vs UK English accent comparison using the Web Speech Synthesis API
- Engineered a semantic search layer leveraging embeddings and Scikit-learn for intuitive NLP query interfaces, demonstrating prompt engineering and AI optimization skills

Food AI Safety System [GitHub](#)

- Architected an end-to-end agentic AI pipeline accepting natural language food queries, routing through ML classification modules, and returning safety risk assessments via REST API.
- Integrated ML inference into a Java/Spring Boot backend, evaluated with precision, recall, and F1 metrics - demonstrating production-grade AI system design.

ML Predictive Pipeline

- Built a supervised ML pipeline for real-world predictive analysis: data ingestion, preprocessing, feature engineering, cross-validation, hyperparameter tuning, and F1-benchmarked evaluation.

EDUCATION

Vellore Institute of Technology, Bhopal

B.Tech, Computer Science & Engineering

• GPA: 8.08 CGPA

Sep 2024 - Sep 2028

Bhopal, Madhya Pradesh

Mother Teresa Mission Higher Secondary School

Higher Secondary

2012 - 2023

Kanpur, Uttar Pradesh

CERTIFICATIONS

- Fundamentals in AI and Machine Learning
- Machine Learning with Python
- Python Essentials for Data Science

- AWS Solutions Architecture Simulation
